Who Are We....

W Gore Construction was established in the 1980s and are based in Rathfeigh, Tara, Co Meath.

We are a family run business, and have been providing high quality construction services to the community since our establishment. As a business we specialise in extensions, renovations, refurbishments, new builds, insurance building works, and commercial fit outs.

We offer a comprehensive service; start to finish, in building and construction. Our aim has always been a simple one; to bring together some of the finest talents and tradesmen in the business, (including – engineers, architects, and surveyors) in order to complete every assignment to the highest standard, - on time and squarely within budget.

New customers mainly come on foot of a recommendation from a satisfied former client and this stands as a testament to the firm's ability and reliability.
